mat clair

- 1 - Ame en contre-plaqué
- 2 - Fond de joint
- 3 - Mastic
- 4 - Profilé de finition
- 5 - Double vitrage

Sérigraphie sur
tweed

- Double vitrage isolant constitué d'un vitrage feuilleté et d'un verre trempé enfermant une lame d'air d'épaisseur adaptée à chaque déclinaison.

- Au label CEKAL pour vitrages standards de type 4/6/44.2 - 4/10/44.2 par exemple.

- En versions sécurité SP10 type 4/10/44.6 sur demande.

- La face décor du vitrage est en qualité :

- Delta mat clair pour les panneaux standards et PB, PBL, PL et vitrail.

- Tweed pour les panneaux en sérigraphie.

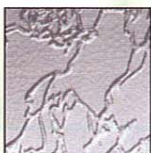

- Verre de St Just pour les panneaux en fusing.

- L'étanchéité des vitrages et du contre-plaqué est assurée par un montage de type bâtiment avec **joint et fond de joint**.

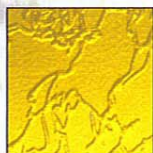

- La finition et l'aspect extérieur sont assurés par un **profilé de finition périphérique extrudé blanc**.
